Sustainable Finance Review: Overview

Refinitiv's Sustainable Finance Review is the most comprehensive view of sustainable financing and advisory activity around the world.

With its combination of both sustainable products and sustainable companies, Refinitiv Deals Intelligence Sustainable Finance league tables are the first and only to adjoin these two aspects of the market into one ranking. The rankings capture sustainability-related deals including green bonds (the result of a partnership with Climate Bonds Initiative to validate transactions consistent with ICMA green bond principles), social bonds and sustainability-linked bonds or loans, the use of sustainable proceeds, and companies operating in sustainable industries to provide a complete view of total capital raising in support of sustainable outcomes.
