Rankings and volume totals include all municipal new issues underwritten during the period from January 1, 2024 to March 31, 2024, of which LSEG was made aware. All current data and previous year's data are as of 9:00am EDT on April 1, 2024. Except where indicated, the rankings quoted above do not include short-term, preliminary, private placement or rank-ineligible issues. Bookrunners receive full credit or true allocation credit if joint, on each issue of which they provide underwriting services. Co-managers receive equal credit for each issue on which they provide co-manager services. Financial advisors receive full credit, equal if joint, on each deal on which they provide advisory services.

LSEG introduced official League Table rankings of bank-contributed Municipal Private Deals as of January 1, 2013. Only deals placed privately or purchased directly by banks or brokers are included in the Private Deals League Tables. Transactions purchased by Government Sponsored Entities, Private Institutions, and individual investors are recorded in LSEG databases but ineligible for League Table accreditation. Otherwise eligible private placements are included in the rankings regardless of size; direct purchases must be at least US\$10 million for inclusion in the rankings.
